<b>Activity In-Charge:</b>	Mr.Rahul Kokaje (Student coordinator)

**Description of activity:**

A famous quote reads, "Imagine if trees gave off Wifi signals we'd be planting so many trees, we'd probably save the planet. Too bad they only produce oxygen we breathe". It is sad how we have grown so accustomed to technology that we overlook the harmful impact it is having on our environment. Not only is the use of technology destroying nature but it is also separating us from the same.

Our group of students performed tree plantation program to spread this message at nearby place called 'taljai tekadi'. Our 13 students participated and each of them planted more & more trees to make the place green & clean.
